About the Fluidal-Energy
resp. Fluidal-Powers and Other Things
Questions and Answers

Fluidalkräfte – welch eine geheimnisvolle, unbekannte Welt verbirgt sich hinter diesem Wort! Bei uns in der FIGU waren sie oft ein Thema – warfen Fragen über Fragen auf. Die Antworten auf unsere Fragen führten, sobald sie überdacht waren, wiederum zu neuen Fragen, und so entstanden unzählige Seiten über diesen äusserst interessanten und faszinierenden Themenkreis in unseren «Küchengesprächen».

Fluidal-powers – what a mysterious, unknown world hides behind this word! With us in FIGU they were often a topic – questions over questions arose. The answers to our questions led, as soon as they were thought over, again to new questions, and so uncountable pages arose about this extremely interesting and fascinating field of topic in our 'kitchen conversations'!

... But tell me, do you all have blue eyes?

Semjase

24. Our eye colours are as diverse as they are on the Earth.

'Billy' Eduard Albert Meier

But yours are a pretty nice blue, they are a really enjoyable sight.

Semjase

25. You love to compliment, thank you.

26. This is my natural eye colour, but we women also like to colour our eyes.

Semjase's portrait by Christian Krukowski (2000), colored by Dejan.

Semjase was 330 years old in 1975 (corresponds approximately to an Earth 33-year-old), who is a slender, young, pretty woman with fair skin, blue eyes and light-blond, fine hair, and is about 1.7 meters (5.5 ft.) tall.

- Plejaren do not keep any pets in their living area.

... But now something very interesting:

Some schoolchildren want to give you a kitten.

Will you take this?

Semjase

167. It is an extraordinary pleasure to hear this offer, but we are not allowed to do such things.

'Billy' Eduard Albert Meier

Too bad, do you not keep pets and such?

Semjase

168. Sure, we also have pets, even cats and dogs, which have been brought from the Earth to our Plejaren worlds in former times, but which we do not keep in the living rooms, as you unhygienically and health-harmingly do.

169. We must not, however, acquire terrestrial animals because they contain certain germs which no longer appear in our animals and which can also be transferred back to the animals through human life forms.

170. This is a safety regulation, why we are not allowed to keep earthly animals.

'Billy' Eduard Albert Meier

I understand that, because we too have such provisions between our countries.

But you would have the possibility of a complete disinfection etc., would you not?

Semjase

171. Sure, but it is our peoples and our understanding that determine whether we need an animal from another world.

172. But such decisions only take place when it is a requirement for one of our worlds.

'Billy' Eduard Albert Meier

... What do you usually wear for shoes; but not always these boot things like you and the others, right?

Semjase

178. Our footwear is similar to yours, but it does not consist of animal skins, but of materials that we artificially produce.

179. So is the clothing, it is very similar to the one you will be using in about 70 years.

- Plejaren do not have "teddy bears", or something like that.

'Billy' Eduard Albert Meier

I notice that.

You are confused, but for sheer joy, it seems to me.

So Herbert hit exactly the right thing.

That makes me happy for you and him.

Where do you want to put this fuzzy bear?

Ah, do not you have any things of this kind yourself?

Semjase

23. He shall remain here in the ship as a constant reminder of the solidarity and the certainty that we also have love and good friends on Earth.

'Billy' Eduard Albert Meier

Okay, and what about my second question?

Semjase

24. Oh yes, no, we do not have things like that.

Note from the Saalome team

The teddy bear shown in the lower right corner is only used for scene display, not the one that Herbert gave to Semjase as a present then.
